## What do we offer?

We are a leading manufacturer of custom and standard CETOP Manifolds. Our world class CAD Manifold design software and applications, of only the most up-to-date technologies in our manufacturing processes, making us the first choice supplier of Manifolds. Our manufactured Manifolds are suitable for a vast range of applications and industries including oil and gas, manufacturing, mining, agriculture and hose management systems.

### EXCEPTIONAL QUALITY

- ✓ ISO9001 certified manufacturing workshop
- ✓ Manufactured in accordance with stringent quality standards
- ✓ Comprehensive testing facilities and test certificates issued with each Manifold
- ✓ Dedicated quality department and on-site Quality Inspector

### STATE OF THE ART MANUFACTURING FACILITY

- ✓ Dedicated manufacturing workshop in Newcastle
- ✓ 4-Axis horizontal and 5-Axis vertical twin pallet CNC machines
- ✓ Vast range of manifolds from Standard Flow Parallel Manifolds to High Flow Manifolds utilising materials including steel, stainless steel and aluminium
- ✓ Continual investment in specialised tools and machinery

### HIGHLY SKILLED TECHNICIANS

- ✓ Skilled Engineers consult customers through each step of the design process to ensure maximum customer satisfaction
- ✓ Specialised on-site welders
- ✓ Highly qualified technicians and CNC operators with decades of experience

### FAST TURNAROUND

- ✓ Deliver in the shortest production lead times possible
- ✓ Operate 6 days a week on morning and afternoon shifts for greater machine operating time and productivity

### PRICE COMPETITIVE

- ✓ Competitive when compared with other major OEMs
- ✓ Design and quotation programs in place to ensure quick and accurate quotations

Berendsen Fluid Power are also proud to distribute a vast range of Hydraforce cartridge valves at very competitive prices.
